WHAT WE DO

03

A large group of youth soccer players and coaches are posed in a gymnasium. The players are wearing various soccer jerseys, some with "UNDEFINED" and "FREESTYLE SOCCER ACADEMY" logos. Some are holding soccer balls. The coaches are standing behind the players. The background shows a gymnasium with a wooden floor and glass walls.

We specialize in coaching, encouraging, and entertaining kids with freestyle soccer! Our services develop juggling foundations, teach kids amazing tricks, help them significantly improve ball control, and help build their discipline/confidence with and without the ball.

Undefined Futbol has a unique and highly important perspective on youth soccer. Their attention to the player and the love for the game is a refreshing and relatable philosophy. We had the pleasure of being introduced to their program and it was incredibly enjoyable for the players, the coaches, and even the parents.”

- Jonny Dunn *Team America Program Director*
